

KEEP HOPE ALIVE COLLABORATIVE

a safety net founded in hope and community

Mission Statement:

We are a growing suicide prevention collaborative with one mission: to *keep hope alive*. When it comes to the heavy topic of suicide, the questions are overwhelming. How do I grieve after a tragedy? How do I support a loved one with suicidal ideation? Where can I seek help if I am going through a crisis? Through education and collaboration, we hope to address these difficult questions and uplift our community. Our interventions will focus on empowering families, individuals, and clinicians in suicide prevention. Together, we can build a safety net of hope for those who need it most.

"This is a beginning of what I envision a set of plans, programs, community awareness, education all on suicide prevention." - **Marsha McInnis, President, NAMI Tri-Valley**
